
Custom consoles

Posted by enterthetrix - 2009/01/13 10:22

I've decided I'm going to start spray painting and modifying consoles again.

I stopped for a while because I lacked the time because of my college work, but having cleared that years ago I've decided to resume my work.

I do spray painting, LED changes, reshaping of the case, etc.

With painting, I can do logos, patterns, designs, etc, all to your specification.

Price breakdown:

Spray paint : £20 per colour up to 1m squared

Patterns / Logos : £10.

LEDs : £1 per colour LED or volume discount

Case reshape : Price depending on design.

Return postage : £10

If anyone is interested, feel free to contact me.
